Trouble Breaks Out in Little Portugal Like Real War

CAUSE OF REBELLION NOT CLEAR

Leaders Claim That Rights Under Republic Have Been Violated and the People Oppressed

The latest news received at Badaose, Spain, from Portugal is that a general of the insurrectionary party, commanding 3,000 troops, is now outside Lisbon preparing to storm the

Complete anarchy reigns in Lisbon, according to news reaching Mad rid last night. Fighting in the streets continues between the mutineers and the loyal troops. The bombardment was stopped Saturday night owing to a lack of ammunition. The number of persons killed or wounded is said to have been considerable. Many buildings were burned and the home of known royalists pillaged.

Premier Dato announced at Madrid yesterday that the Spanish battleship Espana will arrive at Lisbon today to protect Spaniards and other for eigners. He added that another battleship also will probably be dispatch ed to Portugese waters.

Dispatches from Vigo to 'Madrid announce that Portugese people arriving there declare the uprising is the beginning of a civil war in Portugal. Reports from Oporto say that the revolutionists in that city have been placed in jail and that the civil authorities have given over the reins of government to the military. The whereabouts of President De Arriaga is still unknown.

Special dispatches assert that the uprising is not a monachaial movement, but one organized in protestby the party of Dr. Alfonso Costa, former premier, against recent measares of the government.

It is declared that, although mutinnes occurred among the crews of sev eral of the Portugese warships, the army is absolutely loyal.

A Havas dispatch to Paris from Lisbon contains the proclamation issued by the revolutionary committee In Lisbon. It says:-

"We are going to restore the republic to the republicans. We asmand a national government, and consequently it ought to be republican. We shall adopt no party flag, because we wish all republicans to be united for the dignity of the country and the salvation of the republic.

"We do not advise violence or reprisals. Our energy does not preclude generosity to the vanquished. It is the province of the national government alone to execute measures for patriotic defense. All may rely upon its honor and its patriotism."

GRAFT IN WAR CONTRACTS

Cancel Contracts When Goods Are Not as Represented.

May 16.-An unfortune situation has arisen with regard to granting contracts to American manufacturers owing to the failure of even the big houses to deliver goods upon sample. Several important American contracts have been canceled.

Two important cases in point were the delivery of a monthly consignment of 50,000 pairs of boots below sample-the soldiers tore the boots into strips-and of 200,000 pairs of socks delivered and found to be of thirty per cent wool and seventy per cent cotton, while the contract called\_ for seventy per cent wool and thirty

per cent cotton. Of the twenty-five of the largest American houses with which the French government is doing business only one has a record of never falling below sample.

The worst deliveries are those of boots, socks and underwear. The deliveries of cloth are much better.

BIG BALLOON BADLY DAMAGED AVOIDED GERMAN SUBMARINES ALL GUESSES OF NO VALUE

During the Night Within 67 Miles of London.

London, May 17 .- Twenty bombs were dropped on English soil during the night by two German Zeppelins which sailed over a section of the coast. Three persons were wounded by the explosions of the bombs but none were killed and the property damage was slight.

The attack of the Zeppelins was made at Ramsgate, 67 miles from London. The two hostile air craft sailed over Margate and Dover but dropped no bombs on these cities.

According to dispatches received by the admiralty the Zeppelins on their way back to their base were at tacked by eight English aeroplanes and during a spectacular battle in the air one of the gigantic balldons was badly damaged.

London, May 16 .- Hardly had the German attacks on the British lines around Ypres exhausted themselves and the French offensive to the north of Arras shown signs of coming to an end, than the British became the ag gressors to the north of LaBassee and the French and Belgian troops commenced their attempt 'to throw the Germans back from the Yser

French official account, were successful and again compelled the Germans to counter-attack-the most costly of all operations in siege warfare. Fighting at both points is still in progress today, as well as in Ariois, where the French added a further slight gain to tion during the voyage had been those made during the week, which about the German submarine activicombined, constitute the biggest for- ties, and the sight of the warship Germany accepted the American ard movement of either army in th west since the battle of the Marne.

Fighting also is in progress in Woeyre, principally to the west of the forest of LePretre, which the French also won during last week.

The German front has been shat tered along the greater part of a two mile line between Richebourg Pavoue and Festubert by a combined artillery and infantry assault of the Brit ish first army. Two attacks were made, one southward from Richebourg Payoue and the other due east and just to the north of Festubert. In the former, two successive German breastworks were carried on a reach of 800 yards. In the latter 1.200 vards of trenches were taker first, then the gain was extended 600 yards to the south and the British troops dashed irresistibly forward

for a full mile. The fighting began at last midnight when a strong force moved out from Richebourg Paovue and fell upon the Germans unexpectedly, splendidly supported by the artillery. This ac tion was successful and while the attention of the Germans was still en gaged in that region, an other detach ment was sent against the positions to the south.

The engagement is still under way and the British hold the upper hand, according to General French.

Lot of Speculation at Washington as To What Germany May Agree to Do Or Refuse to Do.

Washington, May 18 .- Without word from Ambassador Gerard as to the attitude of the German Governnote, official Washington attached much signifiance today to the intimations in diplomatic quarters here, friendly to Germany, that the Berlin Government, in its reply, might offer to suspend attacks without warning on merchant ships, while the United States renewed its informal proposals for the unrestricted passage of foodstuffs to civilians in Germany.

It was pointed out by well informed European diplomatists that an offer of arbitration or settlement by diplomacy of the questions at issue would most certainly be made by don submarine warfare while the dis

cussion was in progress. Officials have been reticent about many Americans and a large cargo of discussing the idea of arbitration or the proposal with reference to foodstuffs, but it was indicated that the situation had progressed to the point where the United States would not be likely to be satisfied with any conditional acquiescence in the American position. The latter, it is pointed out, is based on legality and humanity and no stipulation can be con

rights under international law. It was intimated, however, that if of the United States, of its own initiative, would be to press strongly its contention on the right to ship foodnight on deck in their chairs with stuffs to Germany, a matter still under diplomatic discussion.
